

Diesel Engine Fire Pump Heavy Duty Solenoids

Type HJSLH12v and HJSLH24v revision 1.0

Technical Datasheet

These heavy duty solenoids are intended for cranking diesel engines, for gen-set or fire pump applications.

They are rated at 825A and are suitable for extended duty.

Specifications, 12v:

Current draw, 2 to 2.6Amps
Drop out voltage, 3v maximum
Ohms, 4.6 to 6 ohms

Specifications, 24v:

Current draw, 3.8 to 4.7Amps
Drop out voltage, 2v maximum
Ohms, 5.1 to 6.2 ohms

Dimensions (inches):
